* Note: The adapter is not included with the STR receiver and must be purchased separately.

* Upon agreement, an option to order a calibration certificate for the product is available against payment. Then, in the execution code, in the place of the last character, enter the digit 2, e.g. **ND45PLUS 2011M002**. The customer will then receive a standard test certificate and a calibration certificate (against payment).

By agreement, an option to order the analyser with IEC 104 communication protocol is available for a fee. In this case, the value 03, e.g. **ND45PLUS 2011M030**, should be entered in the version code in place of the penultimate character.
